DETAILED ACTION

This communication is in response to amendment received on 8/5/08.

Claims 1 – 7 are presented for examination.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 7 is rejected under 35 U.S.C. 102(b) as being anticipated by Adachi et al. (EP 1289281).

As to claim 7, Adachi et al. (hereinafter Adachi) discloses an image pick up device comprising fixing an optical filter (3) on the first flat surface (1) by bonding; installing a semiconductor imaging device (4) with respect to the conductor land (8) for connection provided on the second flat surface; sealing the semiconductor imaging device [0026]; and subsequently installing an optical system for forming images in the inner cavity of the three-dimensional substrate [0027].

Allowable Subject Matter

The following is a statement of reasons for the indication of allowable subject matter: As to claims 1 – 6, the reasons for allowance are the same as presented in office action mailed on 6/12/08.

Response to Arguments

Applicant's arguments with respect to claims 1 - 7 have been considered but are moot in view of the new ground(s) of rejection.
